

REMARKS

Claims 11-13 are pending in this application. By this Amendment, claim 11 is amended and no claims are cancelled. Support for the amendment to claim 11 can be found at least in Fig. 16. No new matter is added.

Claims 11-13 are rejected under 35 U.S.C. §103(a) over U.S. Patent No. 6,603,506 to Ogawa et al. (hereinafter Ogawa) in view of U.S. Patent No. 6,191,815 to McIntyre; and claims 11-13 are rejected under 35 U.S.C. §103(a) over Ogawa in view of U.S. Patent No. 5,649,032 to Burt et al. (hereinafter Burt). These rejections are respectfully traversed.

Applicants respectfully submit that Ogawa and McIntyre, alone or in a permissible combination, do not and nor does Burt, alone or in a permissible combination with Ogawa, teach or even suggest a digital camera that includes a display that displays a plurality of image data simultaneously and a user-operable selector that selects a plurality of image data to be printed by the printer, each of the plurality of image data having been selected by the user as part of the plurality of image data displayed on the display, as recited in independent claim 11.

Moreover, Ogawa, McIntyre and Burt, all fail to teach or even suggest any structure that can reasonably be considered to correspond to the recited features of independent claim 11. Accordingly, withdrawal of the rejections is respectfully requested.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

Mario A. Costantino
